To Whom It May Concern:

I am writing to recommend the work that Dave Sickleststeel did for us in June 2006. Our company expanded billing services and we needed to place the maximum amount of cubicles in a room in order to accomplish our goal. Dave designed several layouts for us and helped us choose which one would work best in our building.

We bought several refurbished Knoll Morrison office cubicles (resulting in 24 new workspaces) from him and they looked as though they were brand new! If there was a problem with any of the parts, they were replaced. If an item was not functioning correctly, it was promptly repaired.

We are very satisfied with the job he did for us.

Sincerely,
