To Whom It May Concern

RE: R.D.S. & Associates

I confirm that I have dealt with R.D.S. & Associates during the relocation/move to two (2) new facilities of about 75 employees. During this time they provided Audiovox Accessories with excellent support in purchasing and installing all office furniture requirements for the two new facilities. Their work was a major factor in making the relocation a success. Their attention to detail and willingness to assist has been exemplary. The contract employees that R.D.S. & Associates employs to accomplish the work are friendly, diligent and professional.

I can confidently recommend R.D.S. & Associates as a solid and reliable supplier, and experts in their field.

Sincerely,
