Dear Dave:

I would like to document the occasions that I have used your service in hopes that you will use me at a reference. You can pass my contact information on to anyone who would like more information:

- You offered me the ability to purchase 100 used Steelcase Avenir workstations at an excellent cost. I went through many of your e-mails with photographs of options until we landed on our selection and you went to California to view them first-hand. I further appreciated your installers' return visits finishing all the punch list items from the furniture installation.
- Another service you offered was matching refurbished panels to the 100 workstations so that shorter panels could be placed along the windows to offer more lighting into our space.
- Lastly, I enjoyed the various options for Board room furniture. I was able to install a 8' solid wood table in excellent condition for a COO.

Dave, I will continue to refer your business to anyone shopping for furniture.

Thanks very much,

Pam Fox
